

Patient Medical Summary

Patient Details

- Patient ID: PAT0001
- Age: 21
- Gender: Male
- Referred By: Self
- Phone No.: 7569775514

Medical History

The patient, Mr. Dhanush, a 21-year-old male, has been experiencing right arm weakness and difficulty expressing thoughts in writing for approximately 4-5 months. No comparison has been provided for this case.

Symptoms and Diagnosis

The patient reported a sudden onset of sharp chest pain that lasted for 2 hours, with a severity of 7/10. The pain was located from the left chest to the abdomen, and the patient also experienced shortness of breath (FTN). The patient's medical history includes a recent drug use incident (Drugalyze).

Treatment and Recommendations

Upon presentation, the patient was given T-RET and R-forma2s medications. The patient was referred to a radiologist for further diagnostic imaging. The current treatment plan includes a doctor's prescription, hydration advice, and avoiding smoke. The patient is advised to follow up within 1 week.

Radiology Findings

No radiology report has been provided for this patient.

Lab Reports

Complete Blood Count (CBC) test results revealed the following:

- Hemoglobin: 50 g/dL (Normal range: 13 - 17 g/dL)
- White Blood Cell Count (WBC): 50,000 / mm³ (Normal range: 4,000 - 10,000 / mm³)
- Platelet Count: 315,000 / mm³ (Normal range: 150,000 - 450,000 / mm³)
- Mean Corpuscular Volume (MCV): 37.50 fL (Normal range: 80 - 100 fL)
- Mean Corpuscular Hemoglobin (MCH): 40 pg (Normal range: 27 - 32 pg)
