

Patient Medical Summary

Patient Details

- Patient ID: PAT0001
- Age/Gender: 21/Male
- Referred By: Self
- Phone No.: 7569775514

Medical History

- No content specified

Symptoms and Diagnosis

- Presenting Symptoms: Sharp chest pain, lasting 2 hours, from left chest location to abdomen, with a severity of 7/10
- Onset: 2025-06-24T01:53
- Diagnostic Markers: No diagnostic markers specified in the provided context

Treatment and Recommendations

- Therapeutic: Doctor prescription
- Education: Hydration, avoid smoke
- Follow-Up: Follow up 1 week
- Diagnostic: Refer to radiologist

Lab Reports

- CBC Test Parameter General Interpretation:
- Haemoglobin: 50 g/dL (13-17 g/dL reference range)
- Total Leucocyte Count: 50,000 / mm³ (4000-10,000 mm³ reference range)
- Differential Leucocyte Count:
- Neutrophils: 35% (40-80% reference range)
- Lymphocytes: 8% (30-60% reference range)
- Eosinophils: 9% (0-8% reference range)
- Monocytes: 8% (4-10% reference range)
- Basophils: 0% (0-1% reference range)
- Absolute Leucocyte Count: 2500.00 / mm³ (4000-10,000 mm³ reference range)
- Absolute Neutrophils: 2000.00 / mm³ (4000-8000 mm³ reference range)
- Absolute Lymphocytes: 500.00 / mm³ (1500-4100 mm³ reference range)
- RBC Ind
